Bangalore 21st May 1885.

From,
Captain C. A. M. Kennington R.E
Secretary to the Government of
Mysore P.W.

To
The Secretary to the Dewan of
Mysore General Deptt.

Sir,

With reference to the Dewan's Proceedings no. 3658-60/170 dated 3rd October 1883 requesting that the repairs to the Kalasa temple in the Mudgeri Taluk may be undertaken by the Public Works Department, I have the honor to inform you that a modified Estimate, amounting to Rs. 4,369, prepared by the Executive Engineer Kadur Division, in consultation with the Kesseme officers, has been sanctioned and returned to the Executive Engineer, for execution by the Board of Managers of the Temple, who have expressed their willingness to carry out the work, which consists of repairs of an ordinary nature, and does not require close professional supervision. It has however been arranged that the work should be inspected at least 3 times by the

the Executive Engineer while it is in progress and once on its final Completion. By this arrangement the Estimate has been relieved of the Charge of about Rs. 500 for Estabblishment. -

I have the honor to be
Sir
Your most obedient Servant
C. H. Kensington Captain, R.E.
Secretary to the Govt
of Mysore & Coorg

Encl -
Nil

Sir,

In reply to the first and last paras of your letter No. 1809 dated the 17th Ultimo, I have the honor to state that the estimate of the Kalasa temple framed by the Public Works Department in 1882, was sanctioned, and received in this Office in May last.—

2.— As affairs connected with the temple are conducted by a Board, the members were asked to undertake the repairs.— One of them Mr. Ramgiah Hebbar of Ambinkodje expressed his inability to attend to them, but stated he could procure a contractor for the repairs, and would supervise them while in progress.— The name of a contractor was sent up, but as he had not laborers, nor materials ready to go on with the work, Chikmagalur Nagappa was asked to undertake

undertake the repairs as suggested by you. — Nagappa declined to take up owing to the low rates. — I then asked the Executive Engineer's opinion about the rates and wished to know if he would visit the temple and see if any change was needed. —

3. — In the meanwhile I have asked the Amildar to persuade Mr. Ranga Hebbar to procure a proper Contractor, and put the work in hand before the monsoons. — A reminder has been sent to the Amildar on the 11th Instant. —

4. — Most of the correspondence is in the Vernacular, and has taken place through the Amildar of Mudgere. — I must admit that the work has not been begun as early as was needed. — A strict reminder has again been sent up to the Amildar. —

5. — In my humble opinion, it seems better, that the work should be conducted through the agency of

of the Public Works Department, as is done at Belúr and Halliede, the wishes of the managers being consulted where needed. —

I have the honor to be
Sir,
Your most obed.t Servant

OFFICE OF THE
2804
DEWAN OF MYSORE

1886

From The Ag Commissioner Mysore

To

The Secretary to the Dewan

of Mysore.

Dated 30th March

Despatched 6th April

Received

Enclosures No. 1

General No. 694 } 1885—86.
No. 1.

Suggesting that the repairs of Kalasa temple be undertaken by the P.W.D. under the circumstances stated.

Answer.

The work of repairs to the Kalasa temple is very simple requiring no great skill. The P.W.D. therefore cannot be saddled with this work.

The temple managing board having undertaken to execute the work the Dewan is requested to entrust the amildar with it.

9/4/86

No 692 annual.

Deputy Commissioner's Office
Kaira District
Camp: Nawsari 20th
March 1911.

To.

The Secretary to the
Govt, Bombay,

Sir,

With reference to your
D.O. circular No 1484/62 dated the 19th June
last, sanctioning the
repairs of the Kalesa
Temple, I have the honor
to forward for information
and obligation return of the
No. 100/13 dated the 22nd
instant, from the Mamlatdar
Officer and to state that
when I went to Kalesa
last month I found
to my astonishment
that the repairs sanctioned
had not been taken in
hand.

I wrote at once to the
Muzaffarnagar Officer whose
reply referred to above
shows that the Temple
Board are not willing
to take up the work especially.
I would suggest that the work
should be taken up by the
P.W.D. who have Contractors
at their disposal. The
Temple having recently
made a large sum out
of sandalwood can
now well afford to pay
the percentage.

I have the honor to be
Sir,
Your most obedient servant.
G. J. Mukherjee
Deputy Commissioner
Kaira.

November 18

Rec'd. 1129

621

To

The Deputy Commissioner
Kadur District.

Sir,

In reply to your no 1120 of 1 29th September, I have the honor to submit the correspondence which has taken place reg the Construction of a Chuttram at Balehonnur, out of the Temple Funds and to state that as now proposed by both the Sreepo Gyaseeh Rao & Rungiah Sebbar, a Musaferkhana may be built at Balehonnur out of the Funds within a cost of 3000/- Rupees and may be called "Kalasa Temple Khana".

Board's G.O. of the 21st instant may be kindly accorded as the early date as the work is an urgent one - the building might a complete upon next instant.

Mysore also a Rest house as the Rest house as at the disposal of the Temple Jr

- 12-0

11/12/18

A sweeper ~~watcher~~ may also be appointed to look after the building on a pay of Rupees 4/: per mensem.

I beg also to submit that as proposed by Mr. Rungiah a Sanskrit School may be established at Vulsa where chiefly the Vedas may be taught. The services of a master can be secured for 10/or 15/: Rupees a month. There is hardly a good School at or near Malacca and as the Village is chiefly inhabited by the Brahmans, the Establishment of such an Institution out of Temple Funds seems to me, to be very appropriate and would lead to the

Education of the Youth in
this ancient place.

I have the honor to be

Dated 25th March 87

No 666
En one.

To

The Deputy Commissioner
Kadur District.

Sir.

I have the honor to submit here with Copy of a memorandum drawn up by me on the Inspection of the repairs which are being executed to the Kalasa Temple

2 The estimate according to which the repairs are being carried out was prepared previous to 1885

3 Since then some of the walls have given way. Other walls and roofs are partly damaged. The amildar has been asked to have Estimates prepared and to submit them at early convenience

4 The original Estimate amounted to Rs 4369, since then the mangalore tiles having been substituted in the place

P.T.O.

of Country one or another thousand Rupees at least will be spent on those tiles. The additional Columns too, may cause not less than at least 1000/Rs. Thus the whole repairs may cost about 6000/Rupees or even more.

5 The village of Kalasa being nearly 30 miles from Mudigere. the Sahukar mil owner or his Shirastadar will not be able to constantly visit the place or personally supervise the Execution of Repairs. The most I can do will be to inspect what is being done once in two or three months

6 As the work is of some magnitude to be executed at a considerable cost, supervision over it by a professional officer seems of at most necessity and importance. I beg to request that you will be good enough to

Ask the Executive Engineer not only to allow one of his experienced overseers to inspect the repairs once in a month, but also to procure the services of a good maistry for the Supervision of the work. The pay of the maistry can easily be defrayed from the sums allotted for the repairs

I have the honor
Sir.

Tiles.

3- The Contractor informs me that the Basel Mission at Mangalore being unable to supply the tiles he has applied to Messrs Morgans at Mangalore for the supply of tiles. It must be impressed on him that unless the Executive Engineer will pass the tiles and pronounce them to be of the first sort, full rates will not be paid. If the tiles are found to be inferior ones the risk of getting such will be his.

+ + +

Earth & Stone work.

5 The outer walls are being finished on rapidly. But I regret to find several of the stones used in the construction are small chips of only one inch in thickness and of a few inches in dimensions. As there is a quarry of stone not far from the Temple, it seems very necessary that

that the materials used for the building should be of the best quality available at the place.

7 + I observe + that + some of the cross beams have still got whitewood. It would have been more satisfactory if the Contractor had not used such wood. He must be told to be very careful in future and use only good wood in a climate like that of Kalsia.

8 - The wood now used is not at all seasoned. The wood which the Contractor will use in the next season at least must be more kept what is well and properly seasoned.

9 The Estimate provides Block I
50 Rupees for excavating the basement. The basement is not yet touched. The excavation should be done and the western wall on the upstairs should be repaired as the same has since come down.

10. are two large cracks in the wall of the Chendrasale towards the Amman's Temple. Instead of reconstructing the whole wall which seems unnecessary as the whole work is strong hewn-stones of at least 3 feet long should be given at 5, 8, and 12 feet height. The wall should be touched up wherever else needed.

+ + +

13. Some of the posts in the Chendrasale are damaged, namely four of the posts at the front. These should be replaced with new ones.

+ + +

17. The Rotimuda, here also only for a string on the walls on either side of the Mandapam. The people and the Upadhyayas are anxious to have the building too restored as before. A good number of posts, Cross beams, rafters and reapers &c. of the old wood used in the Chendrasale will be available

Partial

instead of throwing them away or selling them which will only bring a nominal value in a place like Kalasa they could be used in re constructing the building. This will restore the build ing to its former shape and magnitude and as materials are available, these will not be long in being effected. I found that a deal of wood felled in the jungle has been rejected by the Contractor and lying on the jungle. The Contractor will therefore have only all the wood that has been felled out of these I may in excess of the quantity sanctioned by the Govern ment the idea should be stopped in the jungle — and a length of 5 inches of the Deputy Commissioner who said he would mark them with the temple stamp - this should be taken that the Contractor or any one else does not misappropriate.

mis appropriate any of it

20- The Minagar rains are fast approaching and the end of the fiscal year is close at hand. The Contractor must be told to soon complete the compound walls and the inner Verandah's buildings first. The repairs of the upstairs of the Anedevaram buildings in the East and South must also be finished this season. If not the present upstairs may be damaged from the rains of this year. Measurement lists should be submitted of the works now executed before further sanction for money is applied for. Free hand of wood having been made a proportionate deduction should be made in the cost of the wood work.

No. 4935 — CENTRAL OFFICE,

Bangalore, 17th October 1890.

From

The Chief Engineer of Mysore,

To The Chief Secretary to the
Dewan of Mysore.

SIR

With reference to Proceedings of 1st. 3416-64 dated 8th September 1887, in which sanction was accorded to the estimate of Rs. 2,245 for repairing the Giriyamma's temple at Kalasa, I have the honor to forward the enclosed Completion Report for the work shewing an outlay of Rs. 3,328 to have been incurred on it, or Rs. 1083 in excess of the sanction. The Executive Engineer explains that for an ancient building of this kind, an accurate estimate for all the work required to be done was not feasible, and that deviations and additional work having been found during execution to be absolutely necessary

necessary, they were carried out, and the whole work satisfactorily completed - I request that you will be good enough to obtain formal sanction to the excess outlay, and to the same being debited to the Surplus Fund at credit of the Temple. —

OFFICE NOTE

SUBJECT

LAST REFERENCE.

Letter No 1087 dated 1st Dec 95

from The Dy Comr Kadur Dt

Order.

Say that the bill Can.
not be sanctioned for
reasons marked
in the Memo. &
return bill

Bang 3/2/96

In February 1887, the execution of repairs to the Kalasa Temple was referred to the DPWs.

In April 1887, the then Superintending Engineer forwarded for the sanction of Government an estimate for Rs 2225/- towards the repairs of the Gorijammas temple attached to the

Kalasa Temple. This estimate was sanctioned in Pro: No. 3416-8/64 dated 8th Sep 1887.

In October 1890, the Chief Engineer forwarded to Government a completion bill for the works to the total cost of Rs 3327-11-4 or £1082-11-10 more than the sanctioned estimate

In explanation of this excess, it was ~~explained by the Executive Engineer~~ reported by him that "for an ancient building of this kind, an accurate estimate for all the work required to be done was not feasible, and that deviations and additional work having been found during execution to be absolutely necessary

they were carried out and the whole work ~~was~~ Satisfactorily ~~executed~~ completed".

The excess amount was then passed by Government in Pro. No 13092-4/262 dated 19th Feby 91.

The Dy. Commissioner has now submitted for the sanction of Government, a Supplemental bill for ~~Rs~~ 152-14-4 on account of the ~~same~~ Captain additional works, which was referred to him for adjustment by the Executive Engineer of Kadur. From the latter's docket to the Dy. Comm^r. No 102 dt 28th Apl 1894 it would appear that

Subsequents to the order
of 1891, the amount of
the bill was claimed
by a ~~certain~~ Contractor
in September 1892. But for
some time the claim was
not recognized by the
Executive Engineer for ~~a~~
want of satisfactory ~~a~~
explanation for the long
delay in the submission
of the bill by the Sub. Dn.
Officer. The latter having
been transferred from
the Division, and there
being no probability
of the explanation forth-
-coming, the Ex: Engineer,
passed on the bill to the
Dy Comnr. for adjustment.

The original estimate and the completion bill ~~have been~~ have been drawn up by Mr. Seetharamaiah who was then the Ex. Engineer of the District. The bill under advertance is dated 18-9-91 — more than a year after the completion bill was prepared, and does not give the particulars of the work for which the amount is alleged to be due.

When asked for an explanation on the subject by the Dy. Commissioner, the Ex: Engineer has reported that the additional work

were carried out, be-
cause they were found
necessary and that
the matter ~~had~~ has
been reported by him
to the Chief Engineer.
=.

~~It~~ It is not clear
a Why, the Exc: Engineer,
who first rejected the
Bill, for want of a
Satisfactory explanation,
b should have subsequently
entertained the claim,
in the absence of such
explanation.
=

Beg to propose that
if passing the bill
the question, be referred
to the Ch: Engineer for his
opinion
Aug. 8th.

Deputy Comm'rs Office
Kadur District
Dated 1st December 1895

From

The Deputy Commissioner
Kadur District

To

The Secretary
to the Government of Mysore.
Mnzaroy Department.

Sir

I have the honor to submit for the information of Government that the Executive Engineer, Kadur Division, forwarded a supplemental bill for Rs 152-14-4 towards the repairs to Sri Girijamma Temple at Kalsa

2 On questioning as to how this additional expense was incurred, in the absence of Government Sanction, he replied that the exigencies of the occasion necessitated the undertaking of the work and that the same was reported to the Chief Engineer in Mysore.

3. It is also ascertained that the repairs amounting to Rs 2245/- as sanctioned in Government Proceedings No. 3416-8 dated 8th September 1887 having been executed, a completion report was forwarded by that Department.

4. I therefore solicit the favor of sanction being accorded to the payment of the ~ Supplemental bill the charge being met from the "Management Fund" at credit of Sri-Kalseswara Swamy Temple at Kalsa in the Mudigere Taluk.

5. Vernacular correspondence ending with the Executive Engineer's Yadi No 85 dated 4th September last is also submitted for perusal and favor of Kind return when no longer required.

I have the honor to be
Sir
your most obedient Servant.

B. Rama Chandra Rao

For Deputy Commr
Kadur District

1896.

To

The Deputy Commr
Kadur District.

Dated 17. 3. 96
Deapd
No. 1027 / 51-95 Encl 1 bill V.P

His No 1087 of 1st Dec 95 Submitting for sanction of Govt a Supplemental bill for ~~Rs~~ 152-14-4 on account of the repairs executed to the Sri Girijamma's temple at Kalasa, under the authority of the Govt Pro: No. 3416-8/64 dated 8th Sept 1887.

Adverting to the above, has the ✱ honor to observe that at the time when the

the Government issued
the order no 13092-4/262 dy
7th Feby 91 passing the
completion bill for Rs 3327-11-10
or Rs 1082-11-10 more than
the amount first sanctioned
for the repairs of the temple,
the Chief Engineer had
reported to Government
in explanation of the excess
outlay that certain deviations
and additional works
had been found necessary
during the execution of
the repairs and that they
had been all carried out
and the whole work satis-
factorily completed. It
is not therefore understood
how any extra works beyond
those mentioned in that
completion bill came to
be executed. The supple-
mental measurement
bill for Rs 152-14-4 now

now submitted by the Dy. Commissioner does specify the particulars of the additional work to which it relates; nor has any communication been received from the Chief Engineer on the subject, through the Ex: Engineer of the Kadur Division in his Kanarese communication to the Deputy Commissioner dated 4th Septr '95 states that he has reported the circumstances of the case to the Chief Engineer.

2. Under such circumstances, the Govt are unable to accord sanction to the supplemental bill in question, which is accordingly returned herewith together with

with the other enclosures
to the letter under reply.

By order,

Dfh.
